Touch to access the calibration of touch screen as follows:

If a mistake is made the display will read as below In this case you will need to restart the procedure from the beginning.

Safety Instructions

PLEASE READ COMPLETELY AND BECOME FAMILIAR WITH THE CONTENTS OF THIS MANUAL BEFORE INSTALLATION AND OPERATION OF THIS UNIT. KEEP THIS MANUAL FOR FUTURE REFERENCE.

This unit is a class 1 laser product. The laser beam may cause hazardous radiation if exposed to laser system directly. Do not attempt to disassemble the unit personally.

This unit has been designed and manufactured to assure personal safety. Improper use can result in electric shock or fire hazard.

Warnings

- Do not expose the product to rain, water or excessive moisture. This could cause electrical shorts, fire or other damage.
- This product is designed to operate with a 12 volt DC, negative ground battery system. Use the proper power supply.
- The monitor is operated automatically. Do not push in or pull out the monitor or try to rewind the monitor manually! Do not attempt to adjust the monitor angle upward or downward manually. It will cause damage to the Monitor Mechanism Structure.
- Do not impact the monitor with a hard object. It may cause permanent damage.
- Do ground all equipments and works in order to avoid causing damage to the unit by electrostatic discharges.
- The user who handles this product should take all necessary precautions to avoid ESD (Electro-Static Discharge) failures.
- Do not attempt to install or service your unit by yourself. Installation or servicing of the unit by persons without training and experience in electronic equipment and automotive accessories may be dangerous and could expose you to the risk of electric shock or other hazards.

Important Safeguards

- ❶ To reduce the risk of fire or electric shock, and annoying interference, use only the recommended accessories.
- ❶ While driving, keep the volume level low enough to be aware road and traffic conditions.
- ❶ Parking in direct sunlight can produce very high temperatures inside your vehicle. Give the interior a chance to cool down before starting playback.
- ❶ Do not use any chemical solvent, cleaning agent or corrosive detergent to clean away dirt on the surface of the TFT monitor screen. It may cause irreversible damage.
- ❶ Small black and shiny dots inside the liquid crystal panel should be considered normal for liquid crystal displays.
- ❶ In extremely cold temperatures, the movement of the picture may be slow and the picture may be dark, this is not a malfunction. The unit will work normally once reaching proper operating temperatures.
- ❶ Do not use and store the unit in dusty, high temperature and high humidity environments.

INCLUDED PARTS

1

Bolt and Nut M5 x 1

2

Back Strap x 1

3

M5X5 Screws x 4

4

Power Wire x 1

5

RCA connector x 1

6

Mounting Sleeve x 1

7

Trim Bezel x 1

8

Operational Manual x 1

9

Faceplate case

10

Remote Control x 1

11

Keys x 2

12

External Microphone x 1

13

USB/AUX Adapter

Unit Installation and Removal

Installation method 1

1, Install the mounting sleeve into the dashboard.

2, Bend the tabs into place to secure the sleeve.

3, Slide the unit into the mounting sleeve.

4, Install the trim bezel into the unit.

5, Install the panel to the unit.

6, Make sure all faceplate tabs meet properly with the mounting plate.

7, Press the panel, make sure the gear is locked to the mounting hole.

8, illustration of completed installation

Removal method 1

1, Press the button

2, Safely detach the faceplate

3, Take faceplate off of the mounting plate.

4, Take the panel out

5, Detach the trim bezel.

6, Insert the keys into the opening between the unit and the mounting sleeve to unlock.

7, Pull the unit out of the mounting sleeve.

8, illustration of removal

Installation method 2

1, Tighten the bolt onto the rear panel of the unit.

2, Tighten the back strap onto your car inside the dashboard.

3, Place the unit into the dashboard, attach the backstrap to the back of the chassis with Nut M5.

4, Bolt the unit to the backstrap by attached to the car.

5, Install the trim bezel onto the unit.

6, Install the faceplate onto the unit.

7, Make sure all faceplate tabs meet properly with the mounting plate.

8, Press the panel, make sure the gear is locked to the mounting hole.

Removal method 2

1, Press the button to remove the faceplate

2, Safely remove the faceplate.

3, Take faceplate off of the mounting plate.

4, Take faceplate off.

5, Detach the trim bezel.

6, Unscrew the unit from the car.

7, Unscrew the Nut M5 screw on the rear and remove the chassis

8, illustration of completed removal.

Wire Connections

1. Radio Antenna Adapter
2. Power Cable
3. Audio & Video Output & Input
4. Navigation Box & TV tuner Box Adapter (Optional)

Brake Control

Connect the brake control wire (see Wiring Diagram). It is necessary to connect the Brake Control wire to the parking brake switch in the car. While driving, the TFT monitor will display the warning label (as shown below) as a safety precaution.

Under Rear View Mode the Brake Control function has no effect.

Rewind trigger

Connect to the rewind trigger wire to switch the video display to R/V video input whenever the vehicles rewind gear is engaged. This is required for back up camera functions.

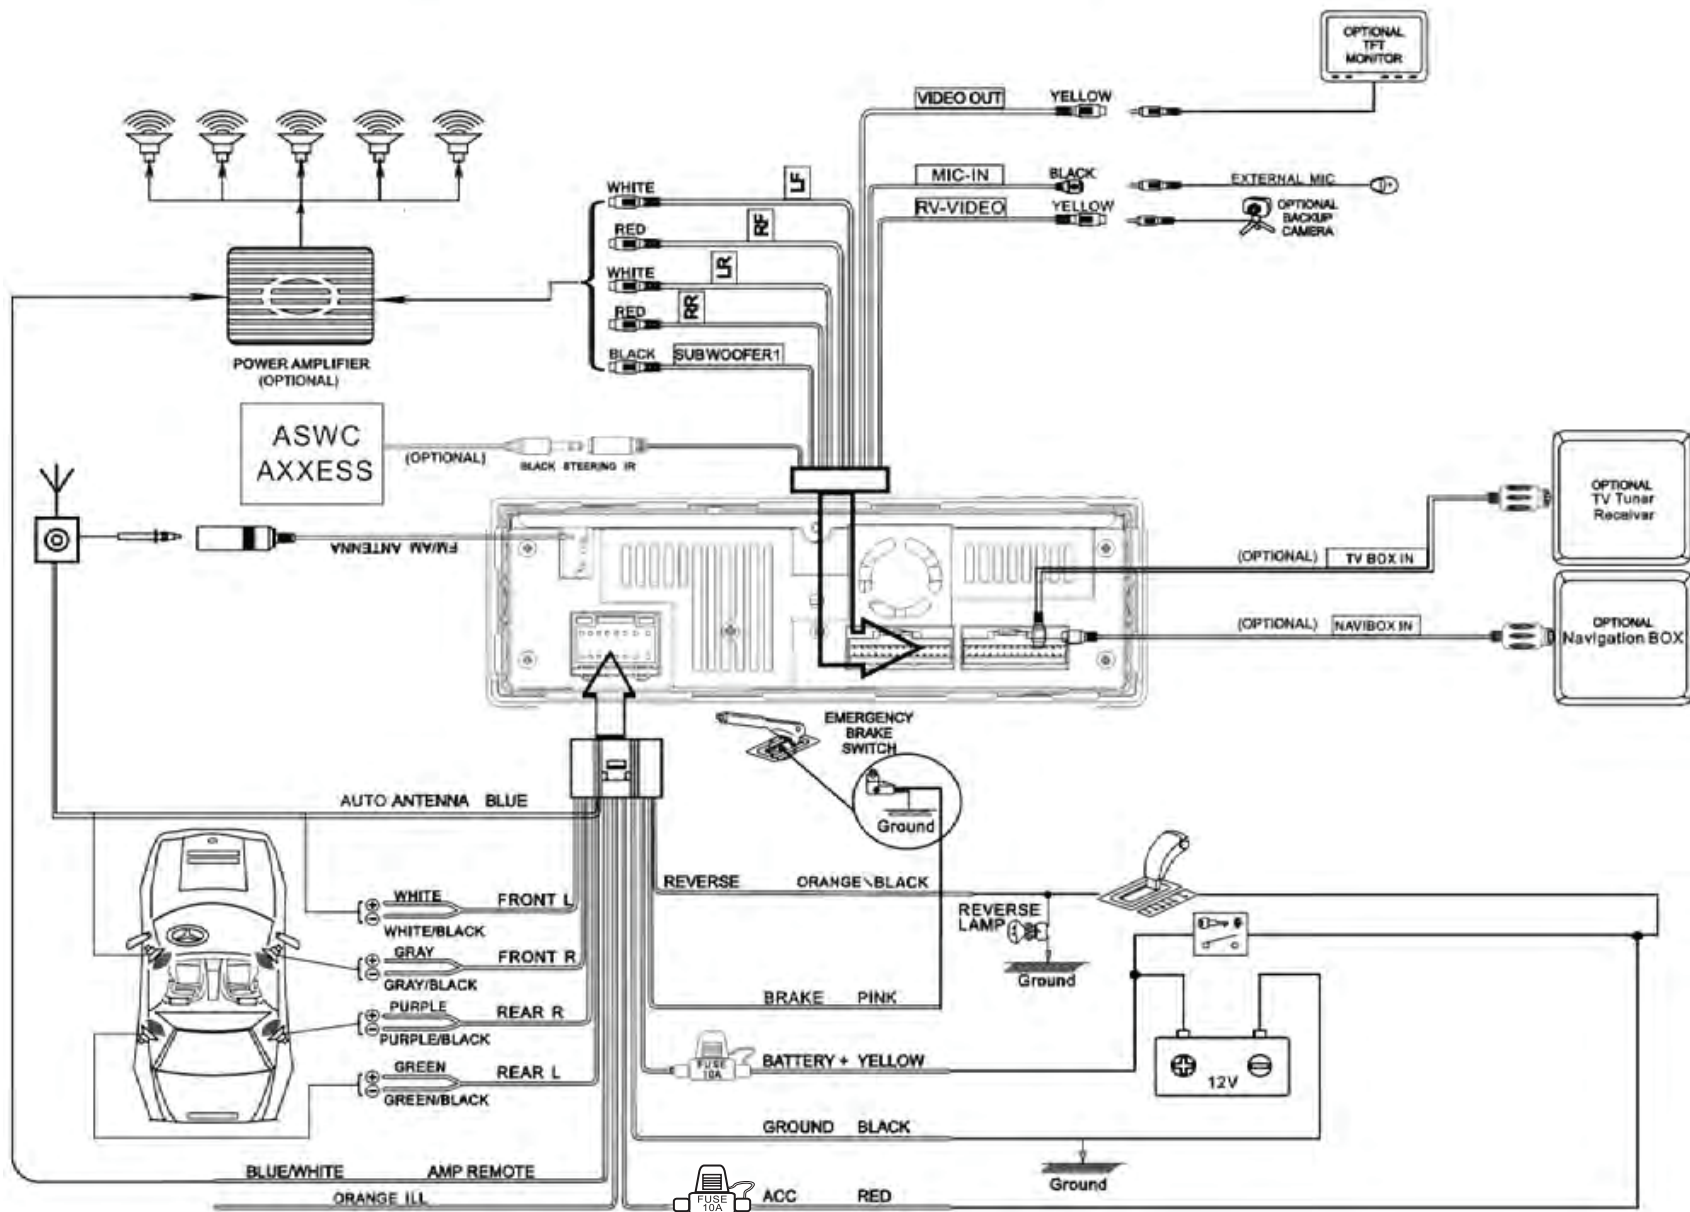

Auto Antenna Control

Connect the auto antenna control wire (see Wiring Diagram). The power antenna (if equipped) will raise whenever the unit is powered up. It will retract when the unit is switched off.

Steering Wheel Control

This steering wheel control function is optional and requires both OEM steering wheel controls and the AXXess brand ASWC module. Follow wiring instructions for the ASWC and connect to the steering wheel control plug on your Inteq unit.

Wiring Diagram

Specifications

General

Power source :	14.4V DC (11-16 V Allowable)
Load impedance :	4Ω(4-8 Ω Allowable)
Maximum power output :	45W x 4
Frequency Response:	20Hz -20KHz 0dB±2dB
Distortion:	≤0.1% (1KHz)
Signal-to-Noise Ratio:	≥70dB(1KHz)

AV OUT

(MODE:DVD Bluetooth IPOD AV IN)

Preout max output	1.8V±0.2 load10Kohm
Frequency Response:	20Hz -20KHz 0dB±2dB
Distortion:	≤0.1% (1KHz)
Signal-to-Noise Ratio:	≥80dB(AUX IN 1KHz)
Subwoofer Output	1.8V±0.2 load10Kohm
Subwoofer Frequency:	80Hz/120Hz/160Hz
Video Output :	CVBS 1Vp-p/75ohm load
Color System:	NTSC/PAL

TV

Frequency Range:	VHF-low 55.25MHz~181.25MHz VHF-high 181.25MHz~471.25MHz UHF 471.25 MHz~885.25MHz
Maximum Sensitivity	VHF-low 32 dBuV VHF-high 32 dBuV UHF 35 dBuV

DIGITAL TV

Frequency Range :	VHF-low 54 MHz~162MHz VHF-high 162MHz~456MHz UHF 456 MHz~858MHz
ANT leakage at input terminal	50dBuV

FM

Frequency Range :	87.5 — 108MHz 87.5 — 107.9MHz
IF-FRE :	10.7MHz
Usable Sensitivity :	≤10dBuV
Stereo Separation :	≥26dB (1KHz)
Frequency Response:	20Hz -20KHz 0dB±2dB

AM

Frequency Range :	531 — 1602KHz 522 — 1620KHz 530 — 1710KHz
IF-FRE :	450KHz
Usable Sensitivity :	≤35dBuV

Bluetooth

Reception Sensitivity :	-90dBm@0.1%BER
Transmission Distance:	≥10M (No obstacles)

GPS

Frequency Range :	1575.42MHz±1.02 MHz
Bandwidth:	> 10 MHz

TROUBLE SHOOTING

If any of problem persists after checking the below list, Please consult your nearest service dealer. Never attempt to disassemble and repair unit personally.

Problem	Cause	Action
GENERAL		
Unit will not turn on (no power)	Yellow wire is not connected or incorrect voltage Red wire not connected or incorrect voltage	Check connections for proper voltage(11-16vdc)
	Black wire not connected	Check connection to ground
	ACC Fuse blown or Car battery fuse blown	Install new fuse with correct rating
	Invalid operation	Press the RESET button
Unit has power (but no/low audio output)	Speaker wires not connected	Check connections at speakers
	One or more speaker wires touching each other or touching chassis ground	Insulate all bare speaker wires from each other and chassis ground
	Speakers damaged	Review wiring diagram
Poor sound quality or distortion	Speaker power rating not compatible with unit	Connect proper speakers
	Speaker is shorted	Check speaker wire contacts
Unit resets itself when engine is off	Incorrect connection between ACC and Positive battery wire	Check wiring and correct
Unit blows fuse	Yellow or red wire touching chassis ground	Check for pinched wire
	Speaker wires touching chassis ground	Check for pinched wire
	Incorrect fuse rating	Use fuse with correct rating
Unit has audio (when in rewind)	Parking brake safety circuit not connected	Check connections at parking brake
	Parking brake not applied	Apply parking brake
Excessive skipping	Unit is not mounted correctly	Check mounting
	Physical defect in media	Check media for scratches
IR remote does not work	Dead battery	Replace battery
	Battery installed incorrectly	Remove battery and install correctly
TUNER		
Weak station searching	Auto antenna is not fully extended	Connect the auto antenna control wire properly

	Auto antenna not properly connected	Connect the auto antenna control cable properly
	LOCAL function is activated	Turn LOCAL function off

Problem	Cause	Action
TFT MONITOR		
No video display (when in rewind)	Rewind circuit not connected	Check connections at rewind lamp
	Vehicle is not in rewind	Select rewind gear
Front panel will not open/close	Front panel obstructed	Remove the obstruction and press OPEN to resume the monitor open/close sequence
Flashing image or interference appears on screen	DVD is not compatible with current TV system settings Image blurred, distorted, or dark	Change setup to accommodate disc
Improper height/width ratio of displayed image	Improper video signal connections	Check wiring and correct
	Improper aspect ratio setup	Use correct aspect ratio setting
Touch screen controls are not accurate	Under different conditions, for example: temperature , humidity, etc.	perform touch screen calibration
DISC		
Cannot insert disc	A disc is already inside unit	Eject current disc and insert new one
DVD playback does not start	Disc is warped or scratched	Use disc in good condition
	Disc is dirty or wet	Clean disc with soft cloth
	Incompatible disc	Use compatible disc
	Disc rating exceeds Parental Lock rating limit	Change parental Lock settings to lower restriction
	Disc region code is not compatible with unit	Use a disc with the proper region code
	Disc is inserted upside down	Insert disc with label side up
Image blurred , distorted, or dark	Copied disc is not compatible	Use original disc
No repeat or searching while playing VCD	PBC is on	Turn PBC off
Interruption occurred during MP3 playback	Disc is dirty or scratched	Clean disc or replace new disc

TV (optional)		
No signal.	TV antenna is not connected correctly, or broken.	Connect TV antenna correctly or replace new TV antenna.
TV picture fuzzy.	Detection of weak signal.	Go to place where have strong signal.
Bluetooth (specified models)		
Low call volume.	Improper MIC location.	Speak closer to the MIC or use an external MIC.
Bluetooth music playback skipping.	Distance from unit to cell phone is too far.	Place the phone to the closer to the unit.
iPod		
Can not select iPod mode.	iPod cable is not connected correctly, or broken.	Connect iPod cable correctly or replace new iPod cable.
Low sound.	iPod volume setting is low.	Increase the volume setting.
Radio		
No signal.	Radio antenna is not connected correctly, or broken.	Connect Radio antenna correctly or replace new Radio antenna.
GPS(optional)		
No signal.	GPS antenna is not connected correctly, or broken.	Connect GPS antenna correctly or replace new GPS antenna.

NOTE:

This user's manual is only for reference.

Modifying rights are reserved.

Specifications are subject to change without notice.

DISC NOTES

Handling and Cleaning

- Dirty, dusty, scratched or warped discs will cause misoperation.
- Do not place stickers or make scratches on discs.
- Do not warp discs.
- A disc should always be kept in its case when not in use to prevent from damage.
- Do not place discs in the following places:
 1. Direct sunlight.
 2. Dirty, dusty and damp areas.
 3. High temperature places.
 4. On the seats or dashboard.

Disc Cleaning

Use a dry soft cloth to wipe the surface. If the disc is quite dirty, use a soft cloth slightly moist with isopropyl (rubbing) alcohol. Never use solvent such as benzene, thinner or conventional record cleaners which may mar the surface of the disc.

NOTE:

A disc may become somewhat scratched (although not enough to make it unusable) depending on your handling it in the condition of the usage environment. These scratches are not an indication of any problem with the player.

Repairing New Discs with Rough Spots

A new disc may have rough edges on its inside and outside edges. If a disc with rough edges is used, the proper setting will not be performed and the player will not play the disc. Therefore, remove the rough edges in advance by using a ballpoint pen or pencil. To remove the rough edges, press the side of the pen or pencil against the inside and outside edges of the disc.

Epsilon Electronics
1550 S. Maple Ave.
Montebello, CA 90640
Attn. Customer Service

Epsilon Electronics warrants this product to be free from defects in materials and workmanship under normal use and conditions, for a period of 1 year from the original date of purchase, if purchased and professionally installed by an authorized dealer. Any product purchased from and/or installed by others will be warranted for 90 days only. This warranty does not cover any expenses incurred in the removal or re-installation of the product, and is offered to the original purchaser only.

Should service be necessary for any reason, due to a manufacturing defect or malfunction during the warranty period, Epsilon Electronics will repair or replace, at its discretion, the defective merchandise at no charge upon delivery of the product to the address shown below, with proof of purchase. Before returning the product for service:

- Enclose with the defective product a brief description of the problem with a name and daytime phone number so we may be in contact with any questions or concerns regarding the return.
- Enclose a copy of the original sales receipt for proof of purchase and installation.
- Enclose a \$15.00 US certified check or money order to cover shipping and handling for return of the product. Do not include cash.

Carefully pack the product to protect it from damage during shipping and send it prepaid to:

Epsilon Electronics
1550 S. Maple Ave.
Montebello, CA 90640
Attn. Customer Service

Ph: 800-724-1377 Fax: 323-722-8125

Please note, the warranty will not cover the following:

- Any product that has been misused or physically damaged.
- Any product that has been installed incorrectly. (i.e. over powered, incorrect enclosure, incorrect wiring, etc.)
- Any units that have been previously opened or repaired by a service center which is not authorized by Epsilon Electronics.

Any applicable implied warranties, including the warranty of the merchants ability are limited in duration to a maximum of 2 years from the date of the original purchase at retail and no warranties, whether expressed or implied, shall apply to this product there after. Under no circumstances shall Epsilon Electronics be liable for any loss or damage, direct or consequential arising out of the use of, or inability to use this product. (some states do not allow for limitations of implied warranties or exclusion of consequential damage therefore these restrictions may not apply.)
